Earpieces

Discreet and hands-free

Simple in function, yet big in value the Mag One earpieces enable the user to discreetly receive and transmit messages via his radio. Moreover they provide an instant hands-free functionality.

PMLN4442 /PMLN4556 & PMLN4443/ PMLN4557 FEATURES

One-piece Integrated Design

The one-piece consumer styling with an in-line thumb-style compact microphone/PTT eliminates the criss-crossing of wire. An adjustable garment clip provides flexibility to attach it to the body's clothing. Simple to use with better mobility giving you a sharper professional image.

Unique PTT/VOX Switch

When activated on a Voice Activated Transmission (VOX)capable radio, the user can operate in total hands-free mode without having to use the radios' PTT (Push-to-Talk) button. To disable the VOX feature, user simply press the radio's PTT once and set selector back to PTT.

Choice of Earpiece

Users have a choice of the earbud or over-the-ear receiver. Whatever your preference is, both are equally comfortable and provide high level of privacy for listening and converse in matters of confidentiality.

Headsets

Comfortable and hands-free

Light weight and comfortable to wear the Mag One headsets are the ideal radio enhancement for customer facing personal which require instant hands- free functionality.

PMLN4444 & PMLN4445/PMLN4558 FEATURES

Light weight &Flexible

The ultra-light and flexible single-side earset fits comfortably on both ears. An earhook wraps behind the ear provides added firm grip for moderate activity work operation. Choose also from the over-the-head style headset with soft rubber ear-muff that provides extra comfort and stability during extended wear and usage.

Adjustable Boom Microphone

Ideal in a noisy environment, the goose-neck boom microphone can be adjusted close to the mouth for clear message transmission, minimizing any interference or need to repeat the transmission. An effective tool for total hands-free operation.

Unique PTT/VOX Switch

When activated on a Voice Activated Transmission (VOX)capable radio, the user can operate in total hands-free mode without having to use the radios' PTT (Push to Talk) button. To disable the VOX feature, user simply press the radio's PTT once and set selector back to PTT.

Remote Speaker Microphones

Operational flexibility and ease of use

Sleek and compact designed Mag One remote speaker microphones enable two-way communication with minimum hassle and maximum productivity. The user can talk and listen without the need to remove the radio from the belt or carry case.

PMMN4008/PMMN4009 FEATURES

Small & Ergonomic

The palm sized housing fits ergonomically to the user's hand.

Innovative Reflex Acoustic Port

Reduces echoing effect and improves audio intelligibility, making audio output natural, clear and loud.

Adjustable Swivel Clip and Coil Cord

Provides users with the flexibility to secure the Remote Speaker Microphone to clothing, enabling instant access and convenience. Coil cord allows flexible extension from the radio to suit user's preference.

Mobile Palm Microphones – Essential part of the radio

Basic in design but unbeatable in price-performance ratio Mag One mobile microphones personate an essential part of a mobile radio providing convenient one-handed operation.

Mag One – Battery portfolio overview

In addition to the Motorola premium batteries, the expanding Mag One batteries portfolio provides another cost effective solutions targeted at light-industrial duty users. The customised “Mag One” cells are specifically engineered to achieve best performance versus cost-efficiency. All Mag One batteries are designed and tested with Motorola radios and chargers.

Mag One - Warranty for Peace of Mind

All Mag One accessories come with a six month warranty that covers manufacturing defects in material and workmanship under normal use and service.

Why is Mag One PTT/VOX unique?

This unique 2-in-1 feature is suitable for use with VOX-capable and non VOX-capable 2-way radios.

When activated on a Voice Activated Transmission (VOX) capable radio, the user can operate in total hands-free mode without having to use the radios' PTT (Push to Talk) button.

To disable the VOX feature, user simply press the radio's PTT once and set selector back to PTT.

CAUTION

Do not set to VOX position for radio with no internal VOX feature. This will cause a continuous transmit and no incoming message can be received. Refer to your radio User's Manual to check if your radio supports VOX capability and for additional information.

Ergonomic Design

Adjustable garment clip provides flexibility to attach accessory to the clothing. Simple to use with better mobility giving you a sharper professional image.
